Datamatix
19718 Lindenfield Court
Katy, Texas 77479

Attn: Taha Shipchandler

Taha,

Now that we have completed the Translator development project I wanted to let you know how pleased we are with the efforts of the Datamatix team. The project was for a tool that is a critical path in our work flow of the future and we were concerned that we could locate any outside developer with the ability to understand our needs, write and test the code, and do it for the budget we had available.

In retrospect our fears were unfounded. Datamatix came through with flying colors. You were both on time and on budget even when we added a last minute demonstration to the mix. Add to the fact that we required an interface to a database structure with which your familiarity was limited and your performance becomes even more outstanding. Please pass on my thanks to your team members. I am sure we will do more work in the future.

Please feel free to provide my name as a business reference. I have no hesitation in recommending your organization to anyone.

Many Regards,

Gary King
Marketing Services
and eBusiness Manager

Taha is an excellent programmer. He knew exactly what we needed and more. He is very skilled and experienced. He is also very patient and has great communication skills. He is easy to work with and always gets his work done when he says, if not sooner. Our company plans on only hiring Taha for future projects. We highly recommend Taha and couldn't ask for a better programmer. [Show less](#)

Very impressed with Taha's work! I have only seen the demo of my software and not the final product just yet, but I am very happy with the process to date! Hats Off! :) I don't know anything about software development, but this guy knows exactly what your asking for if you can half explain what you want to him! Looking forward to working with Taha for years to come! [Show less](#)

Employer interactiveness just right. He took initiative to provide me a formatted document that will speed up the report development. It's going to be a pleasure to do business with Tom
